

Light truck tyres

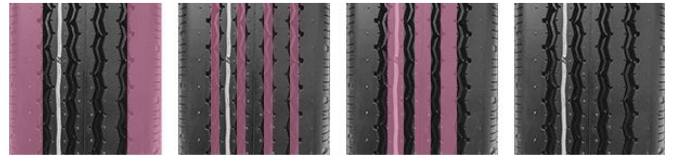

JB55

Features: safety, load, durability and wear resistance

Share: [f](#) [t](#) [e](#) [p](#) [+](#)

BIONIC PRINCIPLE AND DESIGN CONCEPT

Three layer thickened resin cord carcass and high rigidity shoulder design enhance the bearing capacity of tire. Four longitudinal zigzag grooves are designed to enhance the drainage performance and anti-sideslip performance of the tire. The special reinforcement structure design of the sub-port can optimize the stress distribution of the sub-port and avoid the failure of the sub-port. Deep grooves and ultra-high wear-resistant tread design greatly enhance tire wear resistance.

SPECIFICATION PARAMETER

Specifications	Load index Speed level	Adaptable vehicle
7.00R15LT	113/109L	WUSHILING TRUCK
6.50R16LT	107/102L	IVECO
7.00R16LT	117/116N	JIULONG KAOSITE, ANKAI PASSENGER CAR
LT215/85R16	120/118L	CHEETAH
